

Bidault Asks UN Session On Disarmament After Wars End

By JOHN M. HIGHTOWER
BERLIN (AP)—French Foreign Minister Georges Bidault called today for a United Nations disarmament conference provided all hostilities such as the Indochina war are first ended and aggression outlawed.

The French minister introduced a resolution to that effect in the fifth session of the Big Four Berlin conference. His proposal countered a disarmament conference proposition made yesterday by Soviet Foreign Minister V. M. Molotov.

Molotov asked the Big Four to sponsor a worldwide disarmament meeting which would include Red China and other states that are not now members of the United Nations.

Red Upsets Cars
Raising of the disarmament question apparently stymied for the moment a concerted Western plan to force Russia into considering German unification now. The West, with Secretary Dulles in the chair, had intended to bring up the German question immediately after the session opened.

Word from behind the closed doors of the conference hall, however, was that Molotov immediately took the floor and upset the apple cart. Thereupon, Bidault offered his resolution, calling for an end of hostilities and for condemnation of any encouragement or support of aggression. It presumably was aimed at putting new pressure on the Communist world to end the war in Indochina.

No Time Set
Bidault did not suggest a date or period of time for the conference. Molotov had proposed that a Disarmament meeting be held this year.

The French resolution did specify that the conference should conform to the U.N. General Assembly resolution of Jan. 11, 1952, thus making the U.N. the actual sponsor. That resolution directed the U.N. Disarmament Commission to continue its work on conventional arms and atomic weapons in accordance with previous Assembly decisions.

One of the key sections of Bidault's resolution would put the Big Four on record as "proclaiming that the support and encouragement of aggression must be condemned and banned with the aim of ending all hostilities."

Join Their Efforts
The resolution then would have the four "commit themselves to join their efforts in the Disarmament Commission of the United Nations, with the aim of reaching . . . substantial agreements which will permit calling a general disarmament conference under conditions favorable to success."

There was no official word of what Molotov had said to shift the parity onto the subject to disarmament but there was considerable speculation that he may have brought up his own plan to spike the warring world's guns.

After Bidault spoke, Britain's Foreign Secretary Eden took the floor indicating that whether the West like it or not the conference faced a full scale debate on a topic that wasn't even on the agenda.

40 DAIRYMEN GIVEN ADVICE BY SPECIALISTS

Too many cows in too little space make it too hot for anybody's comfort, particularly the milk producers, Charles Burriss, State University Extension specialist, told 40 dairymen gathered at St. James Lutheran Church Thursday for the annual "Dairy Day" held by the county extension association.

Speaking of the need for ventilation in dairy barns, Burriss said it is made necessary because of crowding of 25 to 35 cows into barns built 50 to 100 years ago to provide space for 10 to 12 of the animals, and most of them not as large as the present day cows.

He showed pictures of fans used to provide the movement of air needed to keep the barn at a constant, draft-free 50-degree temperature. He told the group to put the fan in the calf pen, because the fan would pull the warm air from the adult herd into "what is usually the coldest place in the barn—the place where the calves are kept." The pictures showed calves gathered as close as they could to the barn fans—because at that spot the most heat is gathered.

Hay Drying Fans OK
The fans should be of sufficient size that they can move 200 cubic feet of air per minute for every cow.

LOCAL WOMAN TO GET \$40 FOR COURT SERVICE

Controller James F. Lind Thursday informed the York county commissioners, sitting as the county salary board, that he plans to approve a \$40 bill submitted by a Gettysburg woman who did stenographic work in the county court.

Lind said he had been advised by his solicitor, Attorney Paul N. Yost, that the state Supreme Court upheld the payment of such a bill in a similar Cambria County case. The bill in question was submitted by Mrs. Anna Belle Little, Adams county court stenographer, who took notes in common pleas court Jan. 18 and 19.

She had been employed by Judge Ray P. Sherwood to receive \$15 a day plus \$5 a day expenses. Lind said Judge Sherwood approved the bill.

Regular Employee Overworked
The extra stenographer was brought in by Judge Sherwood after he told the salary board that Mrs. Margaret M. Shutter, who receives \$4,000 a year from the county, \$3,400 as a court stenographer and \$600 as his secretary, no longer would take testimony in the courtroom. He told the board early this month that Mrs. Shutter was overworked and at the (Continued on Page 2)

LONDON (AP)—Police sought a thrice-married woman today for questioning about the strangling of three babies found stuffed into suitcases.

Mrs. Elsie Rodgers, 37, the missing wife of a Leeds streetcar motorman, was the object of a nationwide hunt. Police gave no hint of her possible connection with the case.

The bodies of the babies, nylon stockings knotted around their necks and each in a separate suitcase, was found in the store-room of a pet shop at Burton-on-Trent.

A clerk said a woman left the suitcases several months ago for "safekeeping."

GAGE'S DAMAGE SUIT IS BEING TRIED IN COURT

Trial of the action in trespass brought by Leon H. Gage, Gettysburg R. 4, administrator of the estate of Robert Claude Gage, against Emerson Orner, Bendersville car dealer, was begun this morning in Adams County court while a jury debated its decision in various suits arising from collision in East Berlin, March 15, 1951.

The East Berlin crash brought a suit by Joseph H. Ratcliff, Harrisburg, against Sterling Myers and Albert Myers, Spring Grove R. D. Lawrence N. Yost Jr., Camp Hill, and Bryant Air Conditioning Corporation, Philadelphia.

The Messrs. Myers are also suing Yost and Bryant and Bryant and Yost are suing the Myerses, in other action, all of which were tried concurrently.

Joseph H. Ratcliff was awarded \$12,500 damages in a verdict returned after three hours deliberation.

Ask Instructions

Wind-up of the Myers-Ratcliff-Yost-Bryant case came this morning with the charge to the jury by Judge W. C. Sheely. The jury retired at 10:20 o'clock to deliberate and returned at 11:45 o'clock for further information in the case.

At that time they sought a repetition of the amount of "out of pocket" expenses caused by Mr. Ratcliff in the accident. The total, including hospital and physicians' bills and loss of work, was given as \$5,489.09. His hospital-physician bills totalled \$2,227.65 and he was unable to work from March 15, 1951, until February, 1952, a period of 46 weeks.

Ratcliff was a passenger in a car driven by Yost and owned by Bryant Air Conditioning. Both Yost and Ratcliff were employees of the air conditioning concern at the time. Testimony given in the case indicated that the traffic light in the square at East Berlin at the time was operative in all phases with the exception of the red light which would have faced Yost. Sterling Myers, driver of the Myers car, which was owned by his father, Albert, had a green light in his favor.

Coroner Is Witness

Adams County Coroner C. G. Crist was a witness in the Gage-Orner case this morning. He told the jury he was called to the scene near the Gage home, then located near the Pitzer's Trucking concern near Aspers, last May. There he found young Robert Gage dead of injuries including a fractured skull, crushed chest, internal injuries and a compound fracture of the left thigh.

David Pitzer, Biglerville, said he had heard brakes and a thump and ran to the road to find Orner's car off the road, and the Gage child's bicycle on the road. He found the youngster's body. Ira Williams showed pictures of the scene taken by him. LeRoy Winebrenner gave details of a map of the scene drawn by him.

The jury hearing the Gage-Orner case includes Arthur C. Baker, Gettysburg R. 1; Vernon L. Brown, Hanover R. 1; Mrs. Grace Doll, McSherrytown; Mrs. Helen Puss, New Oxford R. 1; Girard Nicholson, McSherrytown; Guy Rex, Biglerville R. 1; Mrs. Mary Schultz, Fairfield; Ruth L. Stary, Littlestown R. 2; Thomas J. Vaughn, Fairfield; Oscar H. Whitcomb, York Springs; Herbert Wolfe, Littlestown R. 2, and Glenn Ziegler, New Oxford.

Jurist Files Petition To Have Supreme Court Change Its Decision Freeing Red

PITTSBURGH (AP)—Justice Michael A. Musmanno appealed today to his Pennsylvania Supreme Court colleagues to reconsider a decision freeing Steve Nelson, western Pennsylvania Communist leader of a state sedition conviction.

The fiery justice who led a raid on Communist headquarters in Pittsburgh and paved the way for Nelson's arrest, filed his petition in the Pittsburgh office of the Supreme Court prothonotary.

Musmanno's petition asked the Supreme Court to "reconsider its decision in the case and of its own motion vacate same, or in the alternative grant rehearing and reconsideration of the appeal."

Musmanno said if his petition is refused he will appeal to the Supreme Court of the United States. He added:

"It is always good to exhaust all resources in the state Supreme Court before going to the nation's highest tribunal. An appellant's position in the U. S. Supreme Court is improved when it can be shown he has exhausted every possibility for correcting the error in one's

PTA DISCUSSES

(Continued from Page 1)
Day observance at the next PTA meeting in February. School directors will be invited.

Mrs. Charles A. Smith, PTA president, presided and 14 members of Troop 79 of the Boy Scouts conducted the opening ceremony. Treasurer Edwin Longenecker announced a balance of \$681. Reports were not available from the Project Committee and the Merger Plan Study Committee.

In the junior high parents' group, Mrs. J. Walter Coleman and Donald A. Ulrich presented parents' and teachers' points of view on the beneficial and harmful effects of having junior and senior high pupils in the same building.

Discuss School Matters
With members of the group joining in the discussion the consensus seemed to be that while smoking and the use of lipstick may develop earlier, the unfavorable aspects of the plan in use here are far outweighed by the benefits and the practical advantages in the school facilities that are available. Superintendent L. C. Keefe said that when the new high school addition is finished, further separation of the two age groups is anticipated.

The senior highs heard a panel discuss the results of polls of parents, teachers and pupils on the value, dangers and need for limitations on extra-curricular activities. All groups agreed that benefits are to be derived but diverse opinions were given as to the extent to which they should be participated in by pupils, the effects they have on homework and what if any means should be used to encourage or limit participation.

Dean Asquith, Penn State University entomologist and vice president of the Adams County Free library, told grade school parents of the importance of good books for young children to stimulate their imagination, acquaint them with good literature, establish reading habits and open opportunities for diversified interests. He pointed out how much more attractive children's books are now and said he does not oppose good comic books as part of their reading diet.

1,000 pounds of live weight of cows in the barn. He added that "it makes no difference whether you have a fan that moves slowly or a little fan that moves fast—the question is whether it moves sufficient air."

Fans used for drying hay in barns are very suitable for ventilating the barn, he added, "because they can be run at almost any speed you want." The gravity system of establishing flues through the barn, which Burress said was not half as effective as a fan, is now too expensive to use anyway.

Joseph Taylor, also an extension specialist from Pennsylvania State University, urged the group to test for Bang's disease in their herds.

Most dairymen are testing for brucellosis and as a result the pressure of health officials to close milk markets to all non-tested milk is increasing and "apparently sure of succeeding." The efforts to prevent milk from cows with Bang's disease from entering markets is based on the fact that brucellosis in cows produces undulant fever in humans.

Payments made by the state and federal government to those farmers who are testing under the state program and whose cows are found to have the disease "are more likely to become less rather than more," Taylor added. He said that where formerly federal-state payments to the farmers to get rid of the diseased cows were \$75.00 per grade and \$100 for purebred they are now down to \$41.50 for grade and \$68 for purebred.

Plans announced at the session for the county brucellosis committee to meet Thursday night to begin plans for a campaign to seek to get all herds in the county on a testing program resulted in Joseph Stoner, East Berlin R. D., being elected chairman. Lester Jacobs, Hanover R. D., was named co-chairman. Plans were started for a series of township meetings to start February 10.

Taylor and Burress also told of methods of using a powder form of sodium bisulphide as a preservative for grass silage, with the material applied as the grass is blown into the silos. Uses of trench silos were also discussed. County Agent Frank Zettie spoke of the soil testing facilities of his office.

U.S. Jury Is Taken To "Little Pentagon" Near Fountaindale But Do Not See Inside Tunnel

WAYNESBORO, Pa. (AP)—A U. S. District Court jury will have the benefit of first hand observations of land involved in the Army's secret underground Pentagon installation when the trial of land damage claims is resumed Monday at Lewisburg.

The jury of 10 men and 2 women made a two-hour on-the-spot inspection yesterday of the area involved in the suits near the Pennsylvania-Maryland border under orders of U. S. District Judge Frederick V. Pollmer.

The suits grew out of the seizure by the federal government of some 1,100 acres in the mountain area for a project which the Army has only described as a supplemental communications center.

Not Allowed Inside
Alfred Holt, Baltimore, Md., heads the list of claimants. He rejected a government offer of \$28,000 for his 280 acre tract, claiming it was worth more.

The jury, after clearance by security officers at nearby Ft. Ritchie, Md., were taken to the area but were not permitted inside the underground installation which has been bored into the mountain-side.

The members of the jury made the trip from Lewisburg in a special bus and were provided with four jeeps and a staff car for the visit to property owned by the claimants.

Roadside Observations
They did little walking in the face of a strong wind sweeping the rugged terrain. Their inspection was confined largely to observations from the roadside.

Holt's attorney, William Sinsky, Baltimore, accompanied the jury on the inspection visit as did Robert P. Shoemaker, Waynesboro, attorney for a number of other claimants.

KIN OF TV STAR IS ARRESTED

JACKSONVILLE, Fla. (AP)—The mother-in-law of television star Ernie Kovacs was in jail today, awaiting arrival of New Jersey police on a charge of kidnapping her grandchildren.

Mrs. Sidney G. Shotwell, 48, who had been free on bond, was jailed again Wednesday when a Florida governor's warrant arrived ordering her and her husband to be turned over to New Jersey authorities.

The Shotwells pleaded innocent last month at a hearing on a New Jersey warrant charging them with kidnapping.

Kovacs, a TV comedian from Trenton, N. J., claims he is the legal guardian of his two children but his wife is keeping them from him.

A Mercer County, N. J., grand jury indicted the Shotwells after Kovacs signed a Trenton Police Court warrant in October in connection with the disappearance of his two daughters, Betty, 6, and Kip, 4.

Det. Capt. Frank Naples of the Trenton police said the children disappeared during a court-permitted visit by their mother in Trenton. Mrs. Kovacs is named in a separate count of the indictment against the Shotwells.

The Army's Corps of Engineers, Ft. Ritchie, explained the various tracts of land. The federal government also was represented by William M. Cronin, counsel for the real estate division of Army Engineers and Maj. John N. Sciolli, executive officer at Ft. Ritchie.

Slasher Gives Montreal Bad Case Of Jitters; 2 More Cases

MONTREAL (AP)—Two more women were attacked last night in a series of razor-slashing incidents that have given Canada's biggest city the jitters.

In the past week, 13 women have been injured. One required 21 stitches. Most of the wounds were minor, however—chiefly cuts on the leg.

Last night's attacks were at opposite ends of the city, at close to the same time. Police speculated there might be two razor wielders at work. Descriptions of the attacker also varied widely.

New Twist Added
A new twist was added last night to the phantom attacks. The man laughed in his victim's face.

Mae Meikle, 21, told police that a man accosted her as she walked along a secluded avenue and told her, "There's blood on your leg." She said he stood with her a short time, expressing concern.

then threw back his head, laughed and ran.

In last night's other attack, a man clamped his hand over the mouth of Marcelle Cusson, 24, as she walked home from work. He gashed her leg, then ran without a word. Ten stitches were required to close the wound.

FIFTEEN YEARS AGO
Shocks Cause More Panic in
Chilean Cities: SANTIAGO, Chile, Jan. 30 (AP)—New panic was reported today among survivors of Chile's disastrous earthquake after more shocks, described as "very strong," in the same region where between 25,000 and 30,000 already had died. The two new tremors, lasting more than two minutes, rocked Chillan and Concepcion shortly before Sunday midnight, injuring 20 persons at Concepcion and spreading terror among the homeless sleeping in the public plaza at Chillan.

Mrs. Dickson Breaks Arm in Fall at Home: Mrs. J. McCrea Dickson, Broadway, fractured her right arm in a fall in the kitchen of her home Sunday evening. She received treatment and X-ray pictures were taken at the Warner Hospital after which she returned home.

Get Marriage License: A marriage license has been issued in Frederick to Robert D. Fair, Taneytown, and Emma M. Gladhill, Gettysburg.

Dr. Moser, 90, Dies: Lutheran Minister From 1875 until 1912: A stroke which he suffered on January 16 and which was followed by another stroke late last week caused the death this morning at 11:10 o'clock of the Rev. Dr. Daniel Melancthon Moser, 90, at his home 153 Carlisle St.

The retired Lutheran clergyman, who had observed his nineteenth birthday anniversary on January 7, had been in good health until two weeks ago. He had been confined to bed since being stricken. Ill health had forced his retirement from the active ministry in 1912, since which time he had resided in Gettysburg. For a number of years he did supply preaching in this section.

On August 15, 1877, he and Maria Louisa Wattles, of Gettysburg, were married. Mrs. Moser died in April, 1936.

Rev. Fr. Christ, Former Rector Here, Succumbs: The Very Rev. Henry S. Christ, rector of St. Joseph's Catholic Church, died at the church rectory Monday. He was seventy-nine years old.

He was stricken with a heart attack last June, but recovered sufficiently to say mass daily in July and August. He suffered a relapse in September and for the past three weeks lay in a semi-conscious condition.

The Rev. Father Christ was rector of the St. Francis Xavier Catholic Church here from 1895 until the end of 1899. Under his administration the work of rebuilding the church was completed.

New Supervisor of Nurses Here: Miss Mary Black, a member of the nursing staff at the Warner Hospital for nearly 10 years, will begin her duties as acting supervisor of nurses at that institution on Wednesday. She succeeds Miss Elizabeth Martin in that position.

Miss Martin recently resigned as supervisor to devote her entire time to operating room work.

Miss Black has been an operating room nurse and has engaged in physiotherapy work at the hospital. She takes her new position on the recommendation of the medical staff of the board of directors.

Carl Oyley Jr., York Street, was treated Monday evening for lacerations to the tongue received while playing ball Monday.

College Swan Ends Early Morning Walk in Chicken Coop: It may have been a family quarrel or possibly just a desire for a change of scenery that prompted one of the swans which has its home along the Tiber on the Gettysburg College campus to take a stroll during the night.

This morning at 5:30 o'clock the swan was found waddling serenely along York Street by Paul Lutz, 342 York Street. Lutz captured the bird and placed it in a chicken coop later returning it to its original home.

Employee Injures Foot at Local Silk Mill: Cyril Miller, Breckenridge Street, an employee at the Gettysburg Throwing company, was treated at the Warner Hospital

Today's Talk

By GEORGE MATTHEW ADAMS

THE ONE-FOOT LINE

During the football season I witnessed two dramatic plays—one in which a ball was thrown from near the center of the field to beyond the goal line for a touchdown, and another play at the one-foot line, that the team failed to make after four tries. Both were crucial moments. One won, the other lost.

How many times in life such moments arrive as they did in the games I saw. Skill, nerve, control often win out where brute force fails. On the one-foot line both teams in a football game concentrate all the strength they have, or through a strategic play gain the touchdown without that brute force!

There is nothing truer than that life is a continual contest. It requires mind, body and spirit. Most of "the breaks" will be ours if we draw on our courage, our faith, and our will to win. As a mode of procedure, here is a line from William Jones. He said: "Let no youth have any anxiety about the upshot of his education, whatever the line of it may be. If he keeps faithfully busy each hour of the working-day, he may safely leave the final result to itself."

In its plastic state the mind is in readiness for every formation of character. Its results are later proven when we arrive at life's one-foot lines—to win, lose, or draw. To perform honorably and give the best that is within us—what more could be required of us? Let us then travel hopefully, cheerfully, and without fear.

Let us enter each day's duties and requirements manfully, exercising patience and humility, looking to God for personal guidance, entering all of life's pursuits as missionaries of light and hope, happy in the companionship of friends, happy to serve where we can—in full readiness at every one-foot line!

Tomorrow Mr. Adams will talk on the subject: "The Start Is Everything."

TIME SAVER

A minute to save, down the highway he tore.
Now the grass o'er him grows.
But what he was saving those few seconds for,
There is no one who knows.

ETERNAL

Were preacher, I.
This thought I'd give:
We're born to die;
We die to live.

RICHES

Not richest he who has the most
Of worldly wealth,
But richest he who has a host
Of friends and health.

EXPERIENCE

Experience is a teacher wise,
But strict and stern,
Swift punishment the dame
Applies.

Until we learn.

Like Picking "Pig In A Poke"

As 12 NFL Teams Draft 360 For Pro Grid Careers Wednesday

By RALPH BERNSTEIN

PHILADELPHIA (AP)—Most National Football League coaches said that thanks to college football's one platoon system they felt as if they were selecting pigs in a poke at the annual pro player draft.

A poll of coaches and officials of various NFL teams brought the general opinion that the quality of 1953 collegiate players was below par. The lack of specialization cut the list of good pro prospects, they said.

Coaches Buck Shaw of San Francisco, Jim Trimble of Philadelphia, Curly Lambeau of Washington, Russ Thomas of Detroit, J. Edgar of the Chicago Cardinals and Vice President Tex Schramm of Los Angeles all agreed that research for this year's draft meeting was twice as tough as any previous year.

Dug Up Old Rosters

Trimble and Shaw set the general pace when they told how they had to dig up 1952 college rosters to find out which players played defense and which played offense during two platoon days. They agreed it was like picking a pig in a poke.

The 12 NFL teams drafted 360 players at yesterday's 14-hour draft session. Each club picked 30 players. All college graders whose original class graduates in 1954, were eligible for selection, even if they have varsity eligibility remaining. Some of those picked matriculated in college but never played, leaving for military duty or for other reasons.

The Cleveland Browns, Eastern Division champions, got things started by walking off with the annual "bonus" pick, Harold Sauerbrey, recently appointed public relations director of the Browns, drew the winning bonus slip out of the hat. Coach Paul Brown immediately grabbed the nation's top passer, Stanford's Bobby Garrett. The Pittsburgh Steelers, Green Bay Packers, Chicago Cardinals and Baltimore Colts were eligible for the bonus prize.

7 Maryland Men Taken

The nation's two top ranking teams, national champion Maryland and runnerup Notre Dame, contributed heavily to the pro ranks. Seven Maryland players were taken and 10 members of the 1953 Fighting Irish can have a chance to play the game for money.

In general, the selectors shied away from All-America players, in their early choices.

John Latner of Notre Dame was the only all-star to go in the first round, Pittsburgh grabbed him.

The rest of the 1953 All-America team was chosen starting with Michigan State's end, Dick Doherty, in round five and ending with Penn's Jack Shanafelt, a tackle, as the 27th pick in the 23rd round. Paul Giel of Minnesota went to the Chicago Bears in round nine; Paul Cameron, UCLA back joined Latner with the Steelers in round eight although he has said he prefers baseball to football.

Kosce Johnson, Rice back, was grabbed by Green Bay in the 14th round, while Oklahoma's J. D. Roberts was a 17th Packer choice. Guard Crawford Mims of Mississippi went to the New York Giants in the 18th round and Sam Morely, Stanford end, to Washington as a 20th choice. Stan Jones, Maryland tackle, was a 1953 Bears pick, while All-America center Larry Morris wasn't eligible for this year's draft.

Other Selections

The Chicago Cardinals started the first round by taking Arkansas's Lamar McHan, a fine quarterback.

Other initial picks were Art Hunter of Notre Dame by Green Bay; Francis (Cotton) Davidson, Baylor, quarterback, by Baltimore; Stan Wallace, Illinois back, by the Bears; Steve Meilinger, Kentucky quarterback-end, by Washington; Neil Worden of Notre Dame by Philadelphia; Mississippi's center, Ed Beatty, by Los Angeles; and Dick Chapman, Rice tackle, by the champion Detroit Lions. Tom Lewis, the Alabama back who became famous with his off the bench Cotton Bowl tackle, was the Cardinals' choice in the 10th round.

ORIOLES HAVE 12 TEAMS IN FARM SYSTEM

While the rest of the Baltimore Orioles front office staff has been concerning themselves with ticket matters and other problems relative to getting ready for the initial entry of Baltimore into American Baseball League competition, Farm Director Jim McLaughlin has been lining up the Bird's minor league organization.

Currently the Oriole farm system lists 12 clubs, one of which is owned and the others on working agreements. San Antonio, of the AA Texas League, is the one farm club which is operated under outright ownership, with Stan McIlvaine serving as general manager. It recently was announced that Don Heffner, who managed the International League Orioles last year, would be the field boss of the Texans.

Wichita, Kansas, of the Western League, and Lewistown, Idaho, of the Western International League, are the two Class A affiliates, and in both cases the team manager has been appointed. The veteran Herb Brett will manage Wichita, while Larry Barton has been named to pilot the Lewistown Club.

The Orioles also have two B clubs, and three class C clubs. The remaining four farm teams all are in Class D loops. Some of the lower classification clubs have not yet named their team managers for the coming season, but McLaughlin states that these appointments will be completed within the near future. In the case of the working agreement clubs the local front office boss selects the manager with the approval of the Oriole farm director.

Stars Produced

The young executive is proud of the record which the minor league organization has made under his direction. Bob Turly, Don Larsen, Bobby Young, Roy Sievers, Don Lenhardt, Jim Dyck and Mike Blyzka are among the outstanding young stars who have been developed under his administration. As of now the Orioles can boast the largest farm system in the American League, with over 650 players under control. Of this total approximately 350 players are on the active list, the bulk of the remainder being in the service. McLaughlin reports that some 68 inactive players will be returning to the active list this spring.

No two of the Oriole farm clubs counting the "parent" club, there are 12 states represented, plus one Canadian province. The latter is Quebec, home of Thetford Mines, of the Class C Provincial League.

WRESTLING IS FAST GROWING SCHOOL SPORT

HARRISBURG (AP)—Wrestling today was cited as the fastest growing sport in the Pennsylvania Interscholastic Athletic Assn. by Mark Funk, executive director.

"Wrestling has climbed to fifth place in the number of schools participating in major sports," Funk said. "There has been an average increase of about five schools a year taking up wrestling for the past eight years."

In 11 of the 12 PIAA districts, 112 schools participate in interscholastic wrestling. Ranking over wrestling in scholastic participation are basketball, baseball, football and track, in that order.

Funk said the climb in wrestling popularity indicated a trend toward individual competition as a means of having more boys take part in athletic events.

Good For Most Boys

"These sports are good for boys who do not have the opportunity to compete in other sports because of weight or height," Funk said. Wrestling, for example, has weight classes that include even the smallest youngsters. Each weight class has its own district, regional and state champion.

"The increase in wrestling among schools this year is greater than it has been in past school years," Funk noted. Eleven new schools added wrestling to their athletic programs.

"In some areas," Funk declared, "wrestling even outdraws basketball in spectator interests." He said this is particularly true in the north central and southwestern areas of the commonwealth.

Only one PIAA district—Dist. 8, the city of Pittsburgh—does not participate in wrestling.

Conduct Tourneys

Each district conducts its own wrestling tourney. Then they compete in four regional tourneys. From each of the regional tourneys, beginning March 6, two top wrestlers in each weight class go to the state championship tourney.

"These individual competitive sports are directly in line with the aims of the PIAA," Funk said. "They provide competition for many more youngsters in the winter and they allow even small schools to participate in interscholastic popularity are golf, tennis and volleyball. Golf, especially, is really coming into its own and moving along." He noted that 85 schools are now participating in golf competition.

"One of the big things that has contributed to the popularity of these sports has been the conducting of championship tournaments," Funk added. "That gives the youngsters incentive to compete."

EDDIE STANKY RETIRING FROM PLAYING LISTS

By BEN OLAN

NEW YORK (AP)—Eddie Stanky added his name today to the list of stars who recently have decided to end their major league playing careers.

Stanky, manager of the St. Louis Cardinals, said yesterday he would go off the Redbirds' active player roster to make room for right-handed pitcher Jim Walsh, conditionally purchased from Hollywood. Walsh won 16 games and dropped nine last season.

"I played in only 17 games last year," Stanky declared. "I feel that Walsh can help our club either as a starter or in relief."

Others Step Out

In recent months, Johnny Mize and Johnny Sain of the New York Yankees, Dutch Leonard of the Chicago Cubs, Bill Nicholson of the Philadelphia Phillies, Walt Master-son of Washington and Bobo New-son (for the umpteenth time) announced their retirements. The Yankees still are trying to get Sain the change his mind.

Too, Satchel Paige of Baltimore and Bob Elliott of the Chicago White Sox, two other standouts of the past, received unconditional releases.

Stanky, who began his big league sojourn with the Chicago Cubs in 1943, subsequently played for the Brooklyn Dodgers, Boston Braves and New York Giants before he became player-manager of the Cards in 1952.

More Sign Up

He calls it "quits" with a lifetime major league average of .268. Although he went to bat only 40 times last season, Eddie still showed his penchant for getting on base, getting eight hits, six bases on balls, three sacrifices and was once hit by a pitch.

Eddie Mikes, who often played shortstop alongside Stanky with the Dodgers from 1945 through '47, yesterday returned his signed contract to the Chicago Cubs. He became the 25th Cub to come to terms for 1954.

Others to sign were: third baseman Bobby Adams of the Cincinnati Redlegs, pitcher Alex Kellner and catcher Wilmer Shantz (Bobby's brother) and Harry Minor of the Philadelphia Athletics, outfielders Elston Howard and Bill Virden and first baseman-catcher Gus Triandos of the New York Yankees and pitchers Charley Fowler, Pete Modica, John McCall and Mario Picone of the New York Giants.

Delone Cagers Here For Two Games Tonight

Tonight two old rivals will get together on the Gettysburg High School basketball floor when the Warriors will be host to Delone Catholic of McSherrytown.

Coach George Forney's outfit edged the Squires 44-39 at McSherrytown last month. They anticipate even keener opposition on this evening from Coach Johnny McMahon's improving squad. Gettysburg has a 6-5 record and the Squires boast an 8-5 mark.

The reserve teams will meet at 6:45.

Adams County League games scheduled this evening include York Springs at New Oxford, East Berlin at Newville, and Fairfield at Bolling Springs. Littlestown will play at Biglerville Saturday evening.

TRABERT WILL AIR COMPLAINTS IN NEW YORK

SYDNEY, Australia (AP)—American tennis star Tony Trabert left for home today saying he's keeping his chapter and verse report on his grievances during nearly three months of tennis in Australia until he talks with the United States Lawn Tennis Assn.

"I'm going to put my recommendations and suggestions to the association in New York," Tony told The Associated Press as he boarded a plane with his wife and two Davis Cup teammates, Bob Perry of Los Angeles and Ham Richardson of Baton Rouge, La.

To Tell Everything

"I'm going to tell them everything I think has happened down here so they will understand the situation," he declared. Among his suggestions, he said, would be one that the Australians either change the date of their national championships or that the American team should not be forced to remain for the tournament.

"Australians don't do anything but play," he said. "We have to go to college."

Resents Crowds Too

Under an arrangement between the United States and the Australian tennis associations the Australian touring team plays in the United States championships and the American players who come to Australia remain for the Australian Nationals.

Apart from his objection to the long stay in Australia, Trabert is known to resent the applause of Australian crowds which he considers one-sided.

He felt this especially when Melbourne fans applauded after he double-faulted in the last game of his vital Davis Cup Challenge Round match against Lew Hoad.

FAVOR JOHNSON TO BEAT SLADE

NEW YORK (AP)—If Harold Johnson doesn't trip over Jimmy Slade tonight at St. Nicholas Arena, he may finally get his title shot at Archie Moore, the light heavyweight champ.

Philadelphia is the likely site for some bally night next July, provided promoter Herman Taylor offers enough cash to convince Charlie Johnston, Archie's proprietor.

The odds of 4-1 favoring Johnson give Slade little chance but the 27-year-old New Yorker can be a very rough character when in the mood. The say he has been in the gym for a month getting ready for this one.

The bout will be on radio (ABC) and television (NBC) starting at 10 p.m., EST.

It went 10 rounds last time, Jan. 16, 1953, when Johnson won a unanimous decision, and may very well go the route again.

Lynn Golden, York Springs, and Terry Hutton, Biglerville, are staging a hot race for the individual scoring honors in the Adams County Scholastic Basketball League.

Golden is on top with 146 points on 55 goals and 36 fouls. Hutton has tabbed 136 points via 51 twin-pointers and 34 foul conversions.

TRACE ORDER IN '44 BLOCKING CHECK ON REDS

By JOHN CHADWICK
WASHINGTON (AP)—Sen. Jenner (R-Ind.) said today the Senate internal security subcommittee will try to fix responsibility for an order which, he said, the White House issued in 1944 for destruction of some naval intelligence files on Communist activities.

This new turn in the Communist-hunting subcommittee's probes was the aftermath of Jenner's account of the episode to a dinner gathering here last night attended by Vice President Nixon and some 400 other guests.

Covered Waterfront
This is how Jenner, the subcommittee chairman, related the story of the files:

They had been built up by a Navy counter-intelligence unit in New York which had an undercover contact in the Communist organization, he said, and "had the basic information on Communists in the maritime units, Communists on the waterfront and Communists in the convoys that went to Russia itself."

Robert Morris, who later became counsel to the internal security subcommittee, in early 1944 was a naval lieutenant attached to the New York counter-intelligence unit. Victor Kravchenko, an official of the Soviet purchasing commission who broke with his Communist government, sought out Morris to give him information, Jenner said. However, after one contact, he

To Match Girl's Weight In Dimes

MORGANTOWN, W. Va. (AP)—An anonymous donor has agreed to give enough dimes to the March of Dimes fund to match the weight of a 4-year-old polio victim.

The weighing ceremony will be held Saturday on the courthouse square. Linda Bonfill, who has almost recovered from the disease, will be counterbalanced with dimes.

Bank President D. R. Richards estimates it will take from \$600 to \$800 to equal Linda's approximate 40 pounds.

added, Washington sent orders to "let Kravchenko alone."

Continuing, Jenner said word reached New York that the counter-intelligence unit was to be broken up. Morris went to Washington to protest but, Jenner went on, "within a few days" the members of the unit were scattered "to the four corners of the earth," and the files were ordered destroyed.

Morris was transferred to the headquarters of Adm. Chester Nimitz, commander of the Pacific Fleet.

"No Recollection" Now
Jenner said Morris told Nimitz about the breaking up of the intelligence unit and Nimitz took up the matter with Adm. Ernest J. King, then chief of naval operations, when King came to the Pacific on a visit a little later.

Jenner said he got the rest of the story recently from an officer whom he would not name but who was on Nimitz's staff. Jenner continued: "Nimitz told King what Bob Morris had told him and asked if it could possibly be true that such an incredible order could have been issued. Adm. King replied that it was true."

"But who," demanded Adm. Nimitz, "could possibly have given such an order?" Adm. King replied, "The White House."

However, last night Adm. Nimitz said by telephone from his Berkeley, Calif., home, "I have no recollection of the incident at all."

DEATH DELAYS FREEING OF TEN TOLL BRIDGES

HARRISBURG (AP)—A potential snarl that could delay freeing of 10 state-owned toll bridges developed today with the death of a viewer in the fight to fix a purchase price for the Walnut Street bridge in Harrisburg.

President Judge Paul G. Smith of Dauphin County Court conceded: "There's a legal knot to untangle."

Harvey O. Dodge, 73, Shiremans-town insurance man and Northumberland native, died Tuesday night. He was the second to die of three court-appointed viewers to decide on an equitable price the state should pay owners for the Walnut Street span, one of 10 taken over the state in 1950.

George A. Wagman, Dallastown contractor, died Aug. 10, 1952, and Dodge and the third viewer, Wilhelm E. Shissler, were authorized to continue.

Shissler and Dodge found that the bridge owners were entitled to approximately \$655,000 for the bridge but the owners filed exceptions.

Judge Smith said an agreement would be sought to permit Shissler to rule on the exceptions.

Asked what would be done if such a move failed, he said: "We'll have to cross that bridge when we come to it."

The long-disputed Walnut Street bridge case could lead to a delay in freeing all the bridges if litigation is further continued for more than a year by prolonged argument in Dauphin County Court or appeals to the State Supreme Court.

Toll collections indicate that the cost of the nine other bridges can be liquidated in about a year.

Has Office But He's Not On U. S. Payroll

WASHINGTON (AP)—Robert Montgomery, actor and television producer, has an office in the White House but is not on the government payroll, presidential press secretary James C. Hagerty said Thursday.

Hagerty told a news conference that Montgomery is helping, at the request of the President and Hagerty, with the technical side of any address the chief executive makes over radio or television.

The form movie star's almost daily visits to the White House prompted reporters' questions today about his status.

TWO HANGED FOR SLAYING

GUAM (AP)—Two Air Force enlisted men, calmly declaring their innocence, were hanged Thursday for the vicious assault-slaying of 27-year-old Ruth Farnsworth, five years ago in a Guam jungle.

The two—Pvt. Herman T. Dennis, 25, of Indianapolis, and Sgt. Robert W. Burns, 36, of Spokane, Wash.—went to their deaths on the 100-foot-high gallows.

As an Army chaplain recited psalms, Dennis said, "I pray for those making this mistake."

"They are not accomplishing anything by executing me."

Burns followed Dennis up the 17 steps to the gallows.

"You are just complying with an order," he told Air Force guards. "You haven't solved the crime."

Miss Farnsworth, a former WAC from San Francisco, was a Navy civilian employee at a curio shop. She was found badly beaten and near death in dense jungle Dec. 11, 1948, only two months before she was to leave for the United States to be married.

Your Income Tax

(Fifth of Six Articles)

By FRANK O'BRIEN

WASHINGTON (AP)—The law has not changed since you paid your last income tax. But the Revenue Service has made some changes in interpretation some of which might save you money. Among the more important are:

1. Premiums for health insurance which does not pay for medical expenses cannot be deducted from income. Some policies pay for lost time from work but not for doctors, hospitals and medicine. You still can deduct premiums on most health insurance as medical expense.

2. Some health benefit payments must be added to income. When your employer pays you benefits through a "plan of insurance," that is not income. But it is not a "plan of insurance" if the employer pays for it out of company reserves rather than doing it through an insurance company.

3. Cost-of-living allowances for U. S. employees in territories and possessions of the United States are no longer considered income. If you are one of the 30,000 people who get them, you do not even have to report such money. And if you are an old hand, you can make tax claims for what you paid on such allowances back to 1950. (Deadline for 1950 claims is March 15, 1954.) However, the ruling does not apply to "territorial post differentials" where an employee gets paid for difficult rather than more costly living conditions.

4. Depreciation schedules for businesses, once approved, will be changed in the future only for "clear and convincing reasons."

These include changes in the business, working a machine more or fewer hours and similar circumstances. Business men have, in the past, protested that one revenue agent would approve a schedule and another agent might come along and change it because he had different ideas.

5. Business men can pay excise taxes quarterly instead of monthly under a ruling by Commissioner of Internal Revenue T. Coleman Andrews.

6. You may deduct among medical expenses, payments to psychologists authorized under state law to practice psychology as a healing device.

But you can't put a value on your blood when you give it to the Red Cross or other agencies and deduct the amount as charity. This is not a donation of property.

AMA PROTESTS HEALTH PLAN

WASHINGTON (AP)—The American Medical Assn. protested today that "a distorted picture" of the nation's health needs has been drawn in an effort to influence public support for a government-controlled medical care program.

As a "positive program" to cushion the economic shocks of illness, an AMA spokesman urged continued reliance on voluntary health insurance for those who can afford it and direct help from local and state governments for the indigent.

Government health "subsidy" is not desirable, he continued, and the problems of chronically ill and the poor can be solved without changing the "existing mechanism" of free enterprise.

FAST Cough Relief

Creomulsion spreads a comforting film over throat membranes, gives relaxing aid, helps expel clogging phlegm, goes into the bronchial system for still greater comfort and relief.

CREOMULSION
relieves Coughs, Chest Colds, Acute Bronchitis

The association's position was outlined in testimony prepared for the House Commerce Committee by Dr. Walter B. Martin of Norfolk, Va., president-elect of AMA and a member of its board of trustees.

The committee has been conducting a continuing study of health needs and ways to ease the burden of doctor bills on the American family.

FAITH THAT MAKES WHOLE

Key Verse: "I came that they may have life, and have it abundantly." John 10:10

That Jesus' ministry was to the whole life of man, human and spiritual, is definitely illustrated in what occurred by the pool of Bethesda in Jerusalem. It was claimed that the water of this pool had healing qualities for certain diseases when its waters were disturbed, or "troubled," as John's gospel puts it. Very likely the pool was fed by an intermittent spring from below the surface.

Many invalids were in the several porches near the pool waiting for the moment when the waters were "troubled." One man who had been ill for 38 years was there, hoping for a chance to enter the pool, but never had that

good fortune. Jesus saw the unfortunate man's situation and said, "Rise, take up your pallet (bed), and walk." That was ministering to the body. Jesus later met the man in the temple and admonished him: "See you are well! Sin no more that nothing worse befall you." That was ministering to the soul. Read any one, or all, of the four gospels and you find the Master constantly engaged in this dual ministry.

Christians do well to follow their Lord's example and to a large degree they do. The churches build and maintain hospitals as well as churches in their mission fields. They teach agriculture, carpentry, irrigation of barren lands, clinics for the sick and other helpful means of meeting serious human needs. Jesus by

asserting His power fed thousands. Man can feed many hungry mouths by improved farming. He can help his fellowmen in numerous ways to share in the abundance with which God has blessed the earth, and all this without neglecting that better part which Mary found at the Master's feet. Jesus healed the sick man at the pool by means of His miraculous power. The miracles of Jesus perplex many devout Christians. Some find it difficult to believe them because they say miracles would be a change or suspension of the laws of nature. This they say could not possibly happen. When a man says that, he is speaking of the laws of nature which he knows. But neither he, nor any other human being, knows all the laws of nature. New laws are discovered in every generation, or oftener, and the end of this knowledge is not yet in sight. So all we can reasonably say is that certain acts of Jesus are beyond our human understanding, which is limited. It is sensible to

go as far as our reason can carry us in the field of the New Testament miracles, and from thereon proceed by faith. And these two, hope and faith, are the effective means by which we live useful and joyous lives.

For our assurance and comfort we should remember that the greatest of all miracles was the resurrection from the dead of our crucified Savior. It has been truthfully said that no fact in history has been established by more credible evidence than the resurrection. Among other testimonies are the changed lives of His disciples and the firm conviction of Paul. He, after the fullest inquiry into evidences, staked his career and his very life upon the reality of the Lord's rising from the dead.

It is suggested that frequent reminders be given to the matter of temperance in the use of alcoholic beverages. Knowing the bodily and spiritual harm that can be done through intemperance we can be certain that this is the

concern of Jesus. As a Minister to the complete life of man He must know the evils of alcoholism. In dealing with this serious problem of our day we ought to remember our Lord's words: "I came that they may have life, and have it abundantly."

A WORLD IN TROUBLE

What has happened to this marvelous world of ours in this twentieth century of God's grace? Mankind seems to be passing through a sea of troubles which has no counterpart in human history.

There are wars and rumors of wars among the nations, and many of the nations themselves are split into warring factions, each faction striving for supremacy, and each intolerant of the views, hopes, and rights of others.

The great trouble with the world is that men have forgotten God. They no longer seek spiritual guidance, but follow the vain ways of the modern world. We have become a cynical, materialistic generation.

If this drift toward world tragedy and chaos is ever stopped, the churches of the world must do it. The world's hope—our hope—is in God and His Church. He alone can save mankind from a sorrowful fate.

The Church seeks to turn the hearts of men from the ways of war and fear and hate to the ways of peace and love.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

KEY DEMOCRATS HIT ECONOMIC PLANS OF IKE

By CHARLES F. BARRETT
WASHINGTON (U)—Key congressional Democrats declared today President Eisenhower's economic program falls far short of effective action to meet a current business dip—while Republicans strongly backed the White House.

Sen. Sparkman (D-Ala.), senior Democrat on the Senate House Economic Committee, said the President offered "noble generalities." He added:

"I don't think the measures he has proposed hold much hope of a greater prosperity. The danger signs are out. He is not meeting them. He has the tools but he is not using them."

Two Points of View
And Rep. Bolling (D-Mo.), another committee member, said: "The President seems to think our economy will be affected by

pious exhortations. I think we need to move faster and harder. We need more action and fewer words."

On the other hand, Sen. Watkins (R-Utah), second-ranking GOP committee member, declared the President was "dead right" in his appraisal that the present downturn is a moderate inventory adjustment and that the economy should turn upward again in a few months.

Watkins said the President offered a "very sound program" to meet the situation. "A short time ago," he said, "everybody was screaming to stop inflation. Now we've stopped it, and of course there are bound to be some adjustments. We are stabilizing the economy. Does anybody want to start prices zooming again?"

REDS ADVANCE

SAIGON, Indochina (U)—Communist-led Vietnamese rebels Thursday pushed their offensive east of the French fortress at Seno and menaced the important French outpost at Phepene, 90 miles east of Seno. The Vietnamese opened this drive Monday.
